

I started my journey with Adsell's Advertising in 2017 where I was assigned to create & run BTL advertising (LMT'S & IMT'S), POSM production & installation, In-Store Branding, Promotion Activities and OOH campaign based on brand objectives & strategies.

I then moved into Petro Division (OMC Sector), which gave me the right balance of experience to ignite out-of-the-box ideas & with in this sector I supervise:

- Canopy Manufacturing
- NFR Signage Production & Installation
- Lube Racks production
- Pole Sign & Monolith Manufacturing
- Application of Vinyl Branding
- Forecourt Branding

I am a confident & passionate individual who believes in hard work, dedication & creativity. I thrive on new ideas, am self-motivated, adapt well to new environments & am always up for a challenge.

My Goals are:

To achieve the most out of my work with limited resources

getting the job done and personal sense of achievement

Meeting higher management's deadlines

Creating successful partnerships
